

Welcome to St. Mike's Virtual Learning

Academics

Our teachers have established and uploaded various virtual learning opportunities on Option C. The learning opportunities utilize resources that are available to facilitate learning and engage students. These resources include Zoom meetings, video messages, projects, extension activities, links to specific academic activities, and more.

Daily Schedule

Time	Activity
9:00am	Teachers post or send any new assignments to students
	Students begin working on assignments; email any questions to teachers.
3:00pm	Teachers respond to student/parent correspondence.

Important to Note:

- Teachers will respond to communications from students/parents by 3:00 P.M.
- Any correspondence sent to a teacher after 3:00 P.M. may not be addressed until the following day. This is at the discretion of the teacher.

Technical Support

We are pleased to offer technical support for St. Mike's Virtual Learning. Please complete the Technical Support Form and someone will reach out to assist you.

Virtual Learning Expectations

- Faith is integrated into all subjects
- Students should conduct themselves as they would during school hours; even though we are learning virtually, school rules and behavioral expectations still apply.
- Please follow dress down day guidelines for any virtual meetings.
- Please ensure students participate in these meetings while in a supervised, main living area of the home such as the kitchen or family room. These steps help us create an appropriate learning environment and allow for adult assistance if needed.
- We understand that parents will also be utilizing technology and realize that students may need to review at a later time.

Zoom Video Conferencing Student Guidelines

Check sound
and video

Make sure an
adult is present

Find a
quiet place

Come prepared

Be on time

Use a simple
background

Mute
microphone
when not speaking

Raise your hand to
participate

Be respectful
Follow the agreements
of the group

Parent permission is required for 1:1 conversations.
1:1 video conversations with students will be recorded.

Seesaw is the best platform to meaningfully engage students in their learning.
Here's how Seesaw works!
